## IMPORTANT INFORMATION (CONT.)

### Explanation of terms used in your notice of assessment

#### **Tax on taxable income**

We calculate the amount of tax you pay on your taxable income. We work it out based on the information in your tax return. This amount may be nil.

#### **Tax offsets**

Tax offsets directly reduce the amount of tax you pay. They are not the same as deductions. Deductions are taken off your income before your tax is worked out. With a tax offset, we work out the tax due on your taxable income then reduce it by the total amount of your tax offsets.

#### **Non-refundable tax offsets**

Most tax offsets are non-refundable and generally can only reduce the amount of tax on your taxable income to zero. This means that if your non-refundable tax offsets are greater than your tax on your taxable income, you do not get a refund of the excess amount. Usually, you cannot transfer the excess or carry it forward to a later income year. It does not reduce your Medicare levy or Medicare levy surcharge unless specific legislation allows.

#### **Refundable tax offsets and tax offset refunds**

If you are entitled to any refundable tax offsets, they reduce the amount of tax on your taxable income. If the tax on your taxable income is reduced to zero and not all of your refundable tax offsets have been used up, the remaining amount will be shown at 'tax offset refunds'. This amount will be allocated against any outstanding liabilities, including Medicare.
